Incliance Banks throwing out Hilmonand Wisconsin Currency.

In relation to the action of the Board of Directors of the Bank of the State of Judiana, regarding a Clearing House, already reported by us, it was resolved to throw out the notes of illinois and Wisconsin Banks. With reference to this action, the Indianapolis Journal says:

It was also determined by the Directors, we lears, to throw out the notes of all Illinois and Wisconsin banks. The discount of 1 per cent heretofore placed on this currency has had the effect of driving a large portion of 1 out of circulation here, and the refusal to receive it on deposit hereafter on any terms, will drive it all from our midst. The Illinois Banks have a circulation here, and the refusal to receive it on deposit hereafter on any terms, will drive it all from our midst. The Illinois Banks have a circulation of about \$27,000,000, Many of these banks are located at inaccessible points, and the cost of procuring redemptions or exchanges is greater than those holders of the currency are willing to submit to. Press & Cribune. MONDAY, APRIL 25, 1859. there is no doubt that the charge unwillingly unred by the Government against the crew and officers of the schooner Echo, was fully sustained. The cuptain of the U. S. Brig Dolphis, by whom the Echo was captured, was on the stand as a witness. He testified pointed by as to the arrest of the prisoners on the high seas; to the fact shattley had a cargo of half-starved Africans on board; that the marked chart on the vessel showed their track and that the outfit of the vessel, the nature of her cargo, the admissions of her erew, and the story of the slaves, left no doubt that the Echo a slave-trader, and that the prisoners were lingly, knowingly and criminally engaged in

who does his dirty business on shares. The arrest was on a warrant issued by an officer who had no jurisdiction in the district, and of course was without legality; but the Marshal refused to give the prisoner up. An excitement arose among the free men of the neighborhood that so shumeless a thing should be; and without violence or intimidation, they terrified the cowardly officials so much that they suffered John to escape. The rescuers were lately indicated. One of them has just been tried by

the head must be held responsible for verdict like these. Let the people note that in thi section of the not, when an accepted share in accovered from the clutches of the hound by thom he is pursued for slavery reaches with a long arm and sharp alons into the heart of every Free State.

The exclusive engagement, by the proprietors of the New York Mercury, of the talented American tourist and author, Bayard Taylor, Esq., is among the most brilliant of the many ce have necessary reaches with a long arm and sharp of expectation and interest.

The trials of which we speak will have widely different results. South Carolina will secome more blindly and criminally devoted to has limited by the thirty and the fresh, sprightly, strictly consideration.

has lain, and the fresh, sprightly, strictly conscientions style of his writings, will render them peculiarly appropriate to the columns of a paper that aims to be and is, at once brilliant and chaste in tone. The general title, chosen for these constributions, is "STRAY CHAPTERS OF LAIS AND TRAYEL"—a simple but expressive head, under which, not only the characters and customs of other lands will be postrayed, but the voyager's own personal adventures, riclasitudes, and fortunes, sad and merry, tragic and comic, also. "The first of these "Chapters," which has just appeared in the Mexicux for April 50th, is entitled "Tus Pizer Journex I Even Maps." and is all that could possibly be desired, for fascina-

year.

All this, poor Office Editors, you must even imagine—but I see it. All day long, it endless succession, scenes of incessant variation pass before the windows—for it looks as though they moved, and not we. But then, you can look out of your back windows and obsery your eyes with the works of men's hands! I am bound for the prairies! Think of that! But only their vast reaches and their given undutations will be visible. It is too early for Sowers. Something may

as this move would augur—to set at defiance the laws of the Star.

Since writing the above we have learned from Sheriff Wightimm the particulars as to the removal of Bunknell from his custody. During the forencom—asy 10 o'clock—the Marshal's bailif, S. A. Abbey, came to the jail, and speaking to the Sheriff, said that Mr. Bushnell was wanted in Gaust for-a few minutes. The Sheriff informed Bushnell, who prepared tog with the bailiff. Just them another bailiff, Mr. Holden, came up to Mr. Abbey, and after holding a consultation, Mr. A informed the Sheriff that Bushnell was not wanted. Soon, however, Mr. Abbey returned, and said Mr. Bushnell was wanted. Bushnell, with his wife and the Sheriff, went to the government building, and just as the party. tion.

I do not wish to discuss, at this time, all of the foolish and filmsy objections made by the 17-mine to the contract with the new company, but that portion calculated to influence the voices of the two honerable gentlement from the Teuth Ward, I will dispose of as follows: The buildings, including the works of the new company, are to be located in the extreme southern portion of this large ward, and their mains will traverse over four miles of the principal avenues through it during this (the first) year of the works. The old company may take a very lively and disniterated interest in that ward this year.

The Marshal asked the Sheriff for the papers or mittimus on which Bushnell had been held by him, but the Sheriff did not have them with him. After going to the jail the Sheriff was called upon by bailiff Abbey for the mittimus or commitment, but the Sheriff aid that the papers were for his own safety, being the warrant by which he held Bushnell, and said that it required as order from the Court to take Bushnell from

Ting the Affections of a Wife.

(From the Greet and Gheo) statement.

A novel and unusual civil action is now being tried in the Superior Court, at Golumbus. The action is a suit brought by Lucius A. Bowers against Irs A. Praston, his wife Margaret Praston, and Aavon B. Grifflin, all residents of Perry township, Franklin Co., to recover fifteen thousand dollars damages sustained by the plaintiff. Bowers, by the altenation of the affections of his wife, Mary E. Bowers, formerly Mary E. Kent. and the eventual separation of the pair, produced by the unlawful compiracy, confedera-

able, and of good character. The plannin, Mr. Bowers, is a very intelligent man, about thrityone years of age and of good appearance; his wife is also intelligent, of prepossessing appearance, and is about twenty years of age. She occupied a seat in Court, and appears to sympathize altogether with the defendants.

From the mass of testimony in the case, we gather hose points: Mr. and Mrs. Bowers were married in Beardstown, Illinois, in 1886; ahe, as it would seem, entertaining a neutral affection for him, was induced to marry him by the persuasion of her friends, and at his own earness entreaties. They were married but a short time when, as it is alleged, the defendants persuaded her to leave him, the defendants it is said, though this has not yet appeared in the evidence, were instigated to this by an old rival of the plaintiff, and came to Ohio, which she attempted to do, but was overtaken on the way by her husband, and was easily induced to stay with him. The defendants, however, continued their efforts, and finally succeeded in separating Mr. Bowers and his wife, and they both came to Pranklin County, as to seek refuge among her friends, he to renew his efforts to reguln her. The poincipal reason and justification of the defendants for their part appears to be that, though they were married, Mr. and Mrs. Bowers were uot man and wife in a spiritual sense, and were consequently miserable, though no striking evidence of the existence of or reason for this unhappiness has yet appeared in the evidence. A great deal of neconistion and "plaintering" took place between
